

# Sophos Intercept X is the world's best endpoint protection.

## SOPHOS INTERCEPT X 3RD PARTY REVIEWS

SE Labs Enterprise Protection Test <sup>1</sup>	Ranked 1st - 100% total accuracy rating
SE Labs Small Business Protection Test <sup>2</sup>	Ranked 1st - 100% total accuracy rating
MRG Effitas 360 Assessment <sup>3</sup>	100% threat protection, 100% PUA detection w/default settings
MRG Effitas Exploit Protection <sup>4</sup>	Ranked 1st. Missed 1 out of 35 exploits
MRG Effitas Malware Protection <sup>5</sup>	Ranked 1st (99.2% malware detection, 95% PUA detection, 0.05% false positive rate)
AV-Comparatives <sup>6</sup>	Ranked 1st malware protection
AV-Test Windows <sup>7</sup>	"Top Product" (6/6 Protection, 6/6 Usability, 5.5/6 Performance)
AV-Test Mac <sup>8</sup>	Perfect Score (6/6 Protection, 6/6 Usability, 6/6 Performance)
AV-Test Mobile <sup>9</sup>	Perfect Score (6/6 Protection, 6/6 Usability)
IDC Marketscape: Enterprise Mobility Management Software <sup>10</sup>	Leader 2019-2020
PC Magazine <sup>11</sup>	Editor's Choice, Best Ransomware Protection
CRN 2019 Products of the Year <sup>12</sup>	Winner, Best Endpoint Security Solution
CRN Tech Innovators Awards <sup>13</sup>	Winner, Best Endpoint Security Solution
Gartner 2019 Endpoint Protections Platform Magic Quadrant <sup>14</sup>	11-time Leader, 2019 Leader
Forrester Wave <sup>15</sup>	Leader Since 2013, 2019 Leader
Forrester Now Tech MDR Report <sup>16</sup>	Top Tier (full scale forensics)

### The World's Best Endpoint Protection

Sophos Intercept X employs a comprehensive defense-in-depth approach to endpoint protection rather than simply relying on one primary security technique. This is the “the power of the plus” – a combination of leading foundational and modern techniques to stop the widest range of endpoint threats.

Modern techniques include deep learning malware detection, exploit prevention, active adversary protection, and anti-ransomware specific features. Foundational techniques include signature-based malware detection, behavior analysis, malicious traffic detection, device control, application control, web filtering, data loss prevention, and more.

### Intelligent EDR

Endpoint detection and response capabilities are needed to go beyond prevention to detect additional threats, investigate further, and respond with confidence.

Unlike other solutions, Sophos Intercept X Advanced with EDR integrates intelligent EDR with the industry's top-rated endpoint protection in a single solution, so organizations can answer the tough questions about security incidents without being overwhelmed by noise and false alerts.

With Intercept X, Sophos has created an EDR product that adds expertise, not headcount. While other EDR solutions rely on highly skilled human analysts to ask questions and interpret data, Intercept X Advanced with EDR is powered by machine learning and enhanced with curated SophosLabs threat intelligence. This means you can use the team you have in place today, rather than having to hire multiple full-time employees in order to get value from your EDR tool.

### Managed Detection and Response

The Sophos Managed Threat Response [MTR] service provides 24/7 threat hunting, detection, and response delivered by a team of Sophos experts as a fully managed service. Managed detection and response fuses machine learning technology and expert analysis for improved threat hunting and detection, deeper investigation of alerts, and targeted actions to eliminate more sophisticated and complex threats.
